### **Traffic Advisory: KY 8 reopens near Maysville; more repairs planned** *Embankment work set to begin Tuesday, May 15, with one-day closure*

FLEMINGSBURG, Ky. – While Kentucky Department of Highways crews finished landslide cleanup Friday on KY 8 near Maysville, and reopened the route to traffic, more roadway repairs – which include a one-day closure – are scheduled next week.

Beginning Tuesday, May 15, contractors with Soil Nail Launcher Inc. will install steel and concrete “soil nails” to stabilize a previous embankment failure east of the William Harsha Bridge.

As part of that project, state highway crews will close KY 8 from approximately 7:30 a.m. until 3:30 p.m. Tuesday, weather permitting, to replace a drainage pipe underneath the roadway. During the closure, traffic should detour using US 62 and KY 3056.

Once the roadway reopens, traffic will be one lane through the construction site. Motorists should watch for temporary traffic signals, and should expect delays.

Road work is subject to change depending on weather conditions. Motorists are asked to heed all warning signs, “Drive Smart” in work zones and remain aware of workers and construction equipment when traveling.
